Part 1: Correlation

- 1.
- 2.
- 3.

4. How to write Mathematics

L^AT_EX is great at typesetting mathematics. Let X_1, X_2, \dots, X_n be a sequence of independent and identically distributed random variables with $E[X_i] = \mu$ and $\text{Var}[X_i] = \sigma^2 < \infty$, and let

$$S_n = \frac{X_1 + X_2 + \dots + X_n}{n} = \frac{1}{n} \sum_i^n X_i$$

denote their mean. Then as n approaches infinity, the random variables $\sqrt{n}(S_n - \mu)$ converge in distribution to a normal $\mathcal{N}(0, \sigma^2)$.

- 5.

Part 2: Simple Regression

- 1.
- 2.
3. blah blah

- (a) Like this,
- (b) and like this.
- (c)

- 4.
- 5.

6. mhmb
